

AQUA X-CELL[®]

VitalAsa

FOR BEEF + DAIRY + POULTRY + SWINE

A Natural Approach to Resilience During Respiratory Challenges

When livestock face periods of respiratory stress, maintaining vitality, appetite and hydration becomes critical. Zinpro[®] Aqua X-Cell[®] VitalAsa delivers targeted support through drinking water with a powerful blend of botanical extracts, phytonutrients and targeted amino acids designed to support normal respiratory comfort and function, and to promote overall vitality during periods of environmental challenges or nutritional stress.

Sustain vitality during periods of stress

BOTANICAL & ESSENTIAL OIL COMPLEX

- Contains botanical ingredients known for their supportive role in maintaining normal respiratory function
- Supports normal respiratory comfort and function
- Helps maintain normal comfort and wellbeing during environmental or nutritional stress

WATER-SOLUBLE DELIVERY

- Simple integration into water systems
- Maintains hydration and nutrient absorption

AMINO ACID FORTIFICATION

- Supports immune function and protein synthesis
- Helps sustain growth and feed efficiency during illness

AQUA X-CELL[®]

VitalAsa

FOR BEEF + DAIRY + POULTRY + SWINE

RESPIRATORY SUPPORT

Supports respiratory health and soothes coughs. Helps maintain water and feed uptake during stress periods.

EASY INTEGRATION

There is no withdrawal period, and all ingredients are approved for use through animal water drinking systems.

HELPS REDUCE STRESS

Formulated with Zinpro[®] Nutressence[®], a proprietary blend of phytonutrients, which has been shown through numerous field trials and common use to support animals during periods of stress as well as supporting respiratory comfort.

TARGETED BOTANICAL EXTRACTS

In addition to Zinpro[®] Nutressence[®], novel manufacturing processes are employed to allow for integration of additional botanical extracts that specifically promote vitality, management of fever and recovery of animals affected by respiratory challenges.

AQUA X-CELL[®] VitalAsa

GUARANTEED ANALYSIS

Lysine (min).....0.5%

INGREDIENTS

Polysorbate 80, Natural and artificial flavors, L-lysine HCl, Vitamin E supplement.

DIRECTIONS FOR USE

SHAKE WELL BEFORE USE

For all classes of beef and dairy cattle, poultry and swine: Prepare enough stock solution to ensure all animals have the opportunity to gain access to the treated drinking water. Provide access to treated drinking water for a maximum of 6 days. Rest for 1 day and repeat if necessary.

Typical conditions: Mix 1.0 to 1.5 fl. oz per 1 gallon of freshwater stock solution and meter through a water proportioning system at the rate of 1 fl. oz per gallon (1:128) of finished drinking water OR mix 1.0 to 1.5 fl. oz in 128 gallons of drinking water.

During challenge conditions: Mix 2.0 to 3.0 fl. oz in 1 gallon of freshwater stock solution and meter through a water proportioning system at the rate of 1 ounce per gallon (1:128) of finished drinking water OR mix 2.0 to 3.0 ounces in 128 gallons of drinking water.

Prime. Optimize. Perform.

Use with Zinpro Performance Minerals in feed as part of a complete nutrition program.

This feed was produced in a facility certified in the American Feed Industry Association's Safe Feed/Safe Food Certification Program; for details go to: www.safefeedsafefood.org.
